EXPERIENCE

Founder
MAR 2023 - PRESENT

OFFSETMAP / SELF-EMPLOYED / REMOTE

- Lead product development, maintenance and strategy for a carbon-offset data web application.
- Manage complex datasets, evolving standards, registry information and credit-retirement data.
- Build with Python, JavaScript and SQL; create maps and visualizations and work with stakeholders.

Environmental Scientist / Biostatistician II
MAR 2024 - JUN 2026

BIOSPHERE 2 / UNIVERSITY OF ARIZONA

- Designed and managed carbon-market research and assessed carbon-methodology testing opportunities.
- Built avsinfronteras.org and salsav.org with interactive maps, graphs, networking and research tools.
- Translated technical information for researchers and stakeholders and contributed to academic work.

Expert
SEP 2020 - MAY 2022

HIGHER SCHOOL OF ECONOMICS / MOSCOW

- Produced policy reports on emissions markets, carbon pricing, carbon farming, agriculture and transport.
- Analyzed agricultural firms and ag-tech startups and provided applied research for policymakers.

Future Policy Award Intern
MAY 2019 - SEP 2019

WORLD FUTURE COUNCIL / HAMBURG

- Researched and co-wrote 12 of 26 policies evaluated with IPU and UNDP.
- Interviewed experts and co-authored work on agroecology and digitization.

Masters Student
FEB 2019 - SEP 2019

WORLDFISH / MYANMAR

- Surveyed 39 aquaculture farmers and informants; coordinated multi-partner fieldwork.
- Performed financial, cost-benefit and investment analyses using household data.

CORE EXPERTISE

Carbon markets / Carbon pricing / Agrivoltaics / Carbon farming / Regenerative agriculture / Agroecology / Climate science

RESEARCH & ANALYSIS

- Policy and market analysis
- Cost-benefit and investment analysis
- Survey and field research
- Project design and management
- Scientific and stakeholder communication

TECHNICAL

Python / JavaScript / SQL / Flask / Leaflet / Plotly / Dash / Chart.js / Interactive maps / Data visualization

EDUCATION

M.Sc., Environmental Protection & Agricultural Food Production

University of Hohenheim, 2019

Thesis research with WorldFish on smallholder aquaculture productivity in Myanmar.

SELECTED IMPACT

3+
YEARS LEADING OFFSETMAP

2+
YEARS AT BIOSPHERE 2

12
AWARD POLICIES RESEARCHED

39
FARMERS SURVEYED
